

MRS. FISKE HERE IN BIG REVIVAL

Brings Manhattan Company for Presentation of "Becky Sharp"—William Faversham and Richard Carle Other Stars Next Week.

Mrs. Fiske and her Manhattan Company come to the New National next week, marking her first appearance in Washington in several seasons. The play is "Becky Sharp," Langdon Mitchell's dramatization of Thackeray's "Vanity Fair," a play which is said to call forth every phase of Mrs. Fiske's marvellously complete and delicately shaded art. No role in Mrs. Fiske's entire repertoire has proven so universally popular as her "Becky Sharp," and the character is one, more than any other, which is inseparably linked with her name. Both in Mr. Mitchell's dramatization and in Mrs. Fiske's realization of "the Immortal Becky," have the utmost human being been paid to Thackeray's literary masterpiece, and by their joint efforts the play has taken a high place among the works of the stage.

BELASCO—"The Faun." William Faversham is said to have "kicked and bled" his way to success in Edward Knoblauch's comedy, "The Faun," coming to the Belasco Theater next week.

While a faun may be a mythical character to be found in classical dictionaries, he is said to be real lively and mirth-provoking in this comedy. It has been generally conceded that Mr. Faversham's impersonation of the faun is the most unique of his career. In studying this role, Mr. Faversham had no "conventional business" to follow; it was necessary to "create," as the actors say, an entirely new and untried character. While the theme is fantastic, the comedy is said to be genuine.

COLUMBIA—"Jumping Jupiter." Richard Carle, the famous comedian, will return to Washington next Monday evening for a week's engagement at the Columbia Theater in what he describes as a musical stepphens over three hundred, which he has given the unique title of "Jumping Jupiter."

Carle's humor and irresistible personality have made him a favorite in this city, as elsewhere. His manner, phrase and delivery, have endeared him with such well-known players as Edna Wallace Hopper, Will Phillips, William Pruet, Burrell Barber, the Clara, Vivian, Lester, Crawford, Jessie Cawdron, Isabelle Winlock, Murray D'Arcy, Charles Dickinson, and others. The music is by Karl Hoschke, composer of "Madame Sherry," "The Fascinating Widow," and "The Three Twins."

CHASE—"The Indians." Chase's next week will offer Edward Abeles and company, Will Rogers' Wild West, John P. Wade and company, Madden and Fitzpatrick, the Primrose Four, Elida Morris, the Three Marcantons, and the daylight motion pictures of "The Indians' Old Water Jar."

Edward Abeles starred in "Brewster's Millions" and has become another polite vaudeville favorite. With Miss Charlotte Lander he will play Grant Stewart's one-act farce domestic entanglement entitled "He Tried to Be Nice." Another Oklahoma comes Will Rogers, the "lariat king," and Goldie St. Clair, the champion lady brawler, "bustle."

ACADEMY—"In Old Kentucky." Public approval many years ago put its seal of indorsement on "In Old Kentucky," the attraction scheduled for the Academy next week.

The play has been presented season after season and has never been drawn from the stage for a single theatrical year. The company and production are kept to a high standard. The race scene is always well done and exciting, and the comedy is mirth-provoking. Will Rogers, Frank Harcourt, and Frank Fanning.

GAYETY—"Cracker Jacks." Bob Man-hester's "Cracker Jacks" company will be at the Gayety next week. With plenty of pretty girls, good leaders, prime comedians, and two new burlesques, the entertainment promises to be of a high order. The comedians are headed by Johnny Jess, assisted by John Williams, another mirth-provoker; Will Brooks, Frank Harcourt, and Frank Fanning.

The show opens with a first part entitled "The Trial Marriage," introducing Ruby Leoni and Mollie Williams. The closing burlesque serves to introduce "The Daffydils."

CASINO—"Vaudeville." A vaudeville bill of attractive variety has been arranged for next week at the Casino Theater.

One of the headline features will be Harry Johnson, the "blackface comedian," with the operatic voice.

Another interesting feature will be the appearance of La Belle Clark, with her beautiful dancing horse and ten white doves, and the features of the big circuses in the summer.

Other acts include the musical Bransons, in an artistic musical offering; Eddie Taylor and Livingston, in a comedy sketch called "A Smoky Affair," and Brandon and Taylor, singing and dancing entertainers.

LYCEUM—"The Wise Guy in Society." Commencing with the performance on Monday the attraction at the Lyceum will be Edmond Hayes, the original "Wise Guy," in a new version of the "Wise Guy," said to set a pace in extravagance or burlesque.

This season the management instructed its representatives to get the best players in burlesque and vaudeville to give costumes full away in the matter of crowns and dresses and to get a chorus of the prettiest women available.

MAJESTIC—Vaudeville. An exceptional bill is presented this week at the Majestic.

The Majestic opens the performance with an interesting picture, followed by Art Foner, equillibrist; Alice Lemont in a novelty musical act, and Charles Gramlich and Helena Hall in Charles Gramlich's character creation entitled "His Affinity." The three musical Millers appear in a good singing and musical act, and Boyle and Pauletti have a bright and catchy singing and dancing act.

The feature, the Three Coles, introduce a tight and bounding wire act.

In a New Comedy

JULIE OPP, In "The Faun" Coming to the Belasco.

The Humorous Part. "There wasn't a single really funny character in the whole comedy." "Wait till the audience calls for the author!"—Mecanderer Blaetter.

MISS PANKHURST GOES TO BOSTON

English Suffragette As Farewell Tells Women to "Beard the Police."

After giving Washington suffragists some advice about militant methods Miss Sylvia Pankhurst invaded Boston today for a campaign in that State to force the Legislature to give women votes. Miss Pankhurst left Washington yesterday afternoon at 5 o'clock after she had talked to an audience at the Columbia about English suffragettes and their ways, and had later taken luncheon at the New Ebbitt with some Washington exponents of "the cause."

Despite the protestations of Washington leaders of the movement that making sidewalks and other infractions of the law were never, never countenanced by them, Miss Pankhurst gayly applauded this procedure with the parting remark that "I am glad the women of Washington have spunk enough to beard the police. It's a fine way of advertising an event and the awards will amount to nothing but martyrdom."

MILITARY HORSE SHOW IS PLANNED

Exhibition At Fort Myer March 20 and 21 Arbus-ing Interest.

A military horse show will be held at Fort Myer, March 20 and 21, and the plans made for it indicate that it will be the greatest that has ever been given in the East. It is to be primarily an exhibition of army horses, but to stimulate interest in the breeding of army horses, but interest among the fashionable people of Washington is already manifest.

Lieut. Adna R. Chaffee, of the Fifteenth Cavalry, will be the member of the equitation board of the army, Major Frederick S. Foltz, of the Fifteenth Cavalry, Major L. G. Barry, of the Third Field Artillery, and Capt. J. R. Lindsey and Capt. J. C. Andrews, of the Fifteenth Cavalry, will manage the show.

The classes will cover every feature of military horsemanship, training, remounts and saddle horses, development of gait, training of jumpers, officers' chargers, artillery horses, and polo ponies. There will be one judge for each event and the awards will be made in the ring.

Cholera Scare in Paris Said to Be Unfounded

PARIS, Feb. 22.—Alarming reports were current that two deaths which had occurred near Beauveaux, fifty-four miles from Paris, were due to cholera. Official investigation, however, established the fact that the disease was not contagious. The sanitary officials say there is no fear of either cholera or typhus getting a foothold in France.

To Make Hair Clean and Glossy

(From the Toronto Times.) "Your hair will grow in beauty and color and brilliance and luxuriance if you will stop drenching and rinsing it with soap and water and use only a dry shampoo powder, sprinkled on the head once a week and brushed thoroughly through the hair. "More dry, dull, brittle and faded hair can be traced to too much moisture than to any other cause. A good shampoo powder will remove every particle of dust, oil and dandruff from the head, leaving the scalp clean, cool, and refreshed, and the hair glossy, soft, and silky. "To make a shampoo powder simply mix four ounces of thorax with four ounces of orris root. Thorax tones up the hair from root to tip, and you need use no other tonic."

BUICK OIL CO., Room 420, Marquette Bldg., Chicago, Ill.

BUICK Midway number one well came in to-day at one thirty P. M. under absolute control, flowing from fifteen hundred to three thousand barrels per day. Had sump holes ready. Capacity estimated fifteen thousand barrels. Are erecting two thousand-barrel tanks. Are negotiating with the Associated Co. for use of their fifty-five-thousand-barrel storage-tank. Oil flowing through two five-sixteenth-inch holes. Heavy gas pressure.

At last we are enabled to give the public definite and specific news. We have struck our first guinea and it is one of the best in the field.

"Do you know what this means?" Do you know that it answers every one of the critics and those who have scoffed and lied about Buick Oil? It tells our stockholders that their judgment was right. More than this, it tells in direct language the value of Buick Midway holdings.

Think of an oil well that is today producing from 1,500 to 3,000 barrels. At the present selling price of oil this means a daily value of from \$750 to \$1,500 to the well. This is not the important question, however. The real point of this matter lies in the fact that our Midway forty is a proven territory. We can sink for wells and produce oil from the acre. We have forty of such acres and this is just a small proportion of our holdings in this field. We do not intend to stop now that our well has come in, but the crew that has been working upon the No. 1 well will now shift their operations to Buick Midway No. 2, and another crew will be installed as soon as possible upon Buick No. 3 and No. 4 and No. 5.

The pipe lines, as you know, are close to our property. We will have no difficulty from this source. Our oil as it flows from our well, will flow from our settling tanks and kists into the great pipe lines and be sent from there on north to Erie or west to the Pacific Coast, wherever it will be loaded into vessels or trains of cars and sent to market.

We have repeatedly told the public that we would bring in this well and that it would be a big one. We have made good our prediction. The telegram we received and quoted above bears the announcement only that the well has come in. Later we shall receive full and complete information from Mr. D. D. Buick who is upon the field and this information we shall send forth to our stockholders in a special act published in the "Buick Oil News."

We shall be glad to give this point also to every one who writes to us for it. One week from today we shall also publish the most latest developments from the field and the progress of our stockholders in a special act published in the "Buick Oil News."

Thousands upon thousands of people have written us that they contemplated purchasing Buick Oil stock when we actually had struck oil. When this announcement comes it will demonstrate the value of Buick Oil shares and

BUICK STRIKES OIL

Buick Midway Well Comes In, Flowing 1,500 to 3,000 Barrels—Means That the Buick Properties Are Worth From Two to Three Million Dollars More.

THIS TELEGRAM TELLS THE STORY:
Moron, California, Feb. 17th, 1911.

BUICK Midway number one well came in to-day at one thirty P. M. under absolute control, flowing from fifteen hundred to three thousand barrels per day. Had sump holes ready. Capacity estimated fifteen thousand barrels. Are erecting two thousand-barrel tanks. Are negotiating with the Associated Co. for use of their fifty-five-thousand-barrel storage-tank. Oil flowing through two five-sixteenth-inch holes. Heavy gas pressure.

At last we are enabled to give the public definite and specific news. We have struck our first guinea and it is one of the best in the field.

"Do you know what this means?" Do you know that it answers every one of the critics and those who have scoffed and lied about Buick Oil? It tells our stockholders that their judgment was right. More than this, it tells in direct language the value of Buick Midway holdings.

Think of an oil well that is today producing from 1,500 to 3,000 barrels. At the present selling price of oil this means a daily value of from \$750 to \$1,500 to the well. This is not the important question, however. The real point of this matter lies in the fact that our Midway forty is a proven territory. We can sink for wells and produce oil from the acre. We have forty of such acres and this is just a small proportion of our holdings in this field. We do not intend to stop now that our well has come in, but the crew that has been working upon the No. 1 well will now shift their operations to Buick Midway No. 2, and another crew will be installed as soon as possible upon Buick No. 3 and No. 4 and No. 5.

The pipe lines, as you know, are close to our property. We will have no difficulty from this source. Our oil as it flows from our well, will flow from our settling tanks and kists into the great pipe lines and be sent from there on north to Erie or west to the Pacific Coast, wherever it will be loaded into vessels or trains of cars and sent to market.

We have repeatedly told the public that we would bring in this well and that it would be a big one. We have made good our prediction. The telegram we received and quoted above bears the announcement only that the well has come in. Later we shall receive full and complete information from Mr. D. D. Buick who is upon the field and this information we shall send forth to our stockholders in a special act published in the "Buick Oil News."

We shall be glad to give this point also to every one who writes to us for it. One week from today we shall also publish the most latest developments from the field and the progress of our stockholders in a special act published in the "Buick Oil News."

Thousands upon thousands of people have written us that they contemplated purchasing Buick Oil stock when we actually had struck oil. When this announcement comes it will demonstrate the value of Buick Oil shares and

have been attacking Buick Oil and who have been endeavoring to dissatisfy its stockholders.

What do you think the earnings of the Buick Oil Company will be when we have 10 wells upon the Buick Midway forty, all of them bringing in 1,500 to 3,000 barrels of oil or more per day? Selling our oil at 50c per barrel means that we will enjoy an income of \$750,000 to \$1,500,000 per year for each and every well put down if these wells run 1,500 to 3,000 barrels per day. This means that one 10 well would be on one acre about \$750 to \$1,500,000 per year, or \$2,742,500 to \$4,482,500 per year. Such an income is possible upon one acre, what will the income be upon forty acres, and every tract in the Midway tract is in our opinion, equal to the land upon which our Buick Midway No. 1 well is located. No man alive can figure out the profits to be derived from Buick Oil. They are merely speculative.

We feel that Buick Oil stock will go to several times its present price and we fully anticipate being able to return to our stockholders, in the nature of large dividends, a simple profit upon their investment, simply from several of these wells. When our 20-acre holdings are being operated together with the 40-acre Maricao Sunset, and after we have several other wells gushing upon our Midway tract, the earning power of Buick Oil stock will be colossal.

Now is the time to buy Buick shares at 75 cents. Do not wait a single day. Do not delay, but purchase as many of these shares as you present money can buy. Your life will enable you to do it. It is our opinion that this company will increase its value many times more than its present value. We believe in its stock, and we believe from the thousands upon thousands of letters which we have received in the past, and are receiving today from all sections of this country, that we will exhaust every share we have for sale within a very short time.

Our No. 2 well, which will be started immediately, should reach the oil body in 120 days, and No. 3 well should come in within a short time thereafter. It is our hope and ambition to have three productive wells on Buick Midway 40 by the middle of summer, and we believe that when these wells are producing that this company's stock cannot be purchased for two or three times the price it is selling at today, for then it should be earning very large dividends.

All questions of experiment are now in the past. The future of this company reaches itself down to a purely arithmetical question. This company publishes a little paper called the "Buick Oil News," which appears twice each month. The next edition of this publication
